

A photograph showing a caregiver in a white lab coat and glasses leaning over an elderly man lying in a hospital bed. The man is wearing large headphones and has his mouth open as if singing or speaking. The caregiver is holding a small device, possibly a music player, near the man. The background shows a typical hospital room setting with medical equipment and a window.

Bring the Power of Personalized Music to Your Care Setting

MUSIC & MEMORY[®] Certification Training

- ✓ Flexible, Scalable, and Easy to Implement Program
- ✓ Designed for Use in Any Care or Community Setting.

Transform Care with Personalized Music

Music & Memory helps individuals living with dementia and other cognitive or physical challenges reconnect with themselves, reduce anxiety, and improve quality of life—simply by listening to the music they love.

Since 2010, we've trained and certified over 5,800 healthcare organizations worldwide, helping care teams bring the power of personalized music to those they serve. Backed by research and supported by IMNF's leadership in music and neurologic health, our program has become the gold standard in music-based care.

Flexible Pricing for Organizations of All Sizes

\$600–\$1,000, based on the number of staff being trained
\$800 per hospital department
\$200 annual renewal

"This is a program that should be in every single long-term care community. Music & Memory will impact so many lives in such a profound way!"

Mary Brinkley, Executive Director, Leading Age Oklahoma
